

FARO®

PointSense for Revit 17.0 – What's new?

Release May 2016

Overview – What's new?

PointSense for Revit 17.0

- Compatibility Revit 2017
- French menu and dialogues
- Improved wall fitting
- Support of Revit Worksharing projects

PointSense for Revit 17.0 Compatibility

Operating systems:

- 64 bit variants of Windows 10, 8.1, 8, 7

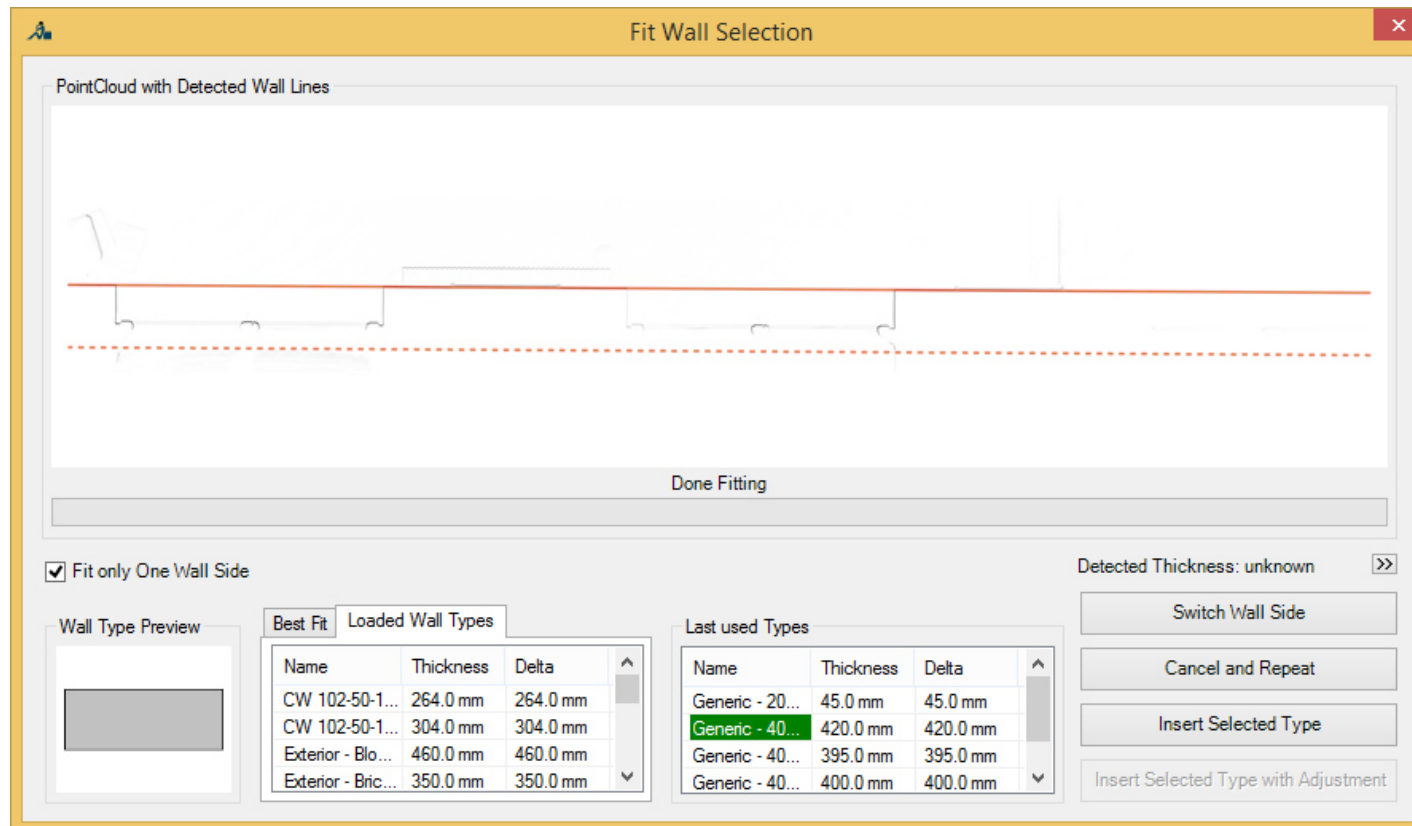

Compatibility to Revit:

- Support of **Revit 2015 - 2017 64 bit**
- Support all Revit products (Architecture, Structure, MEP and Revit full version from Building Design Suite)
- Support Autodesk ReCap point cloud formats (RCS, RCP)

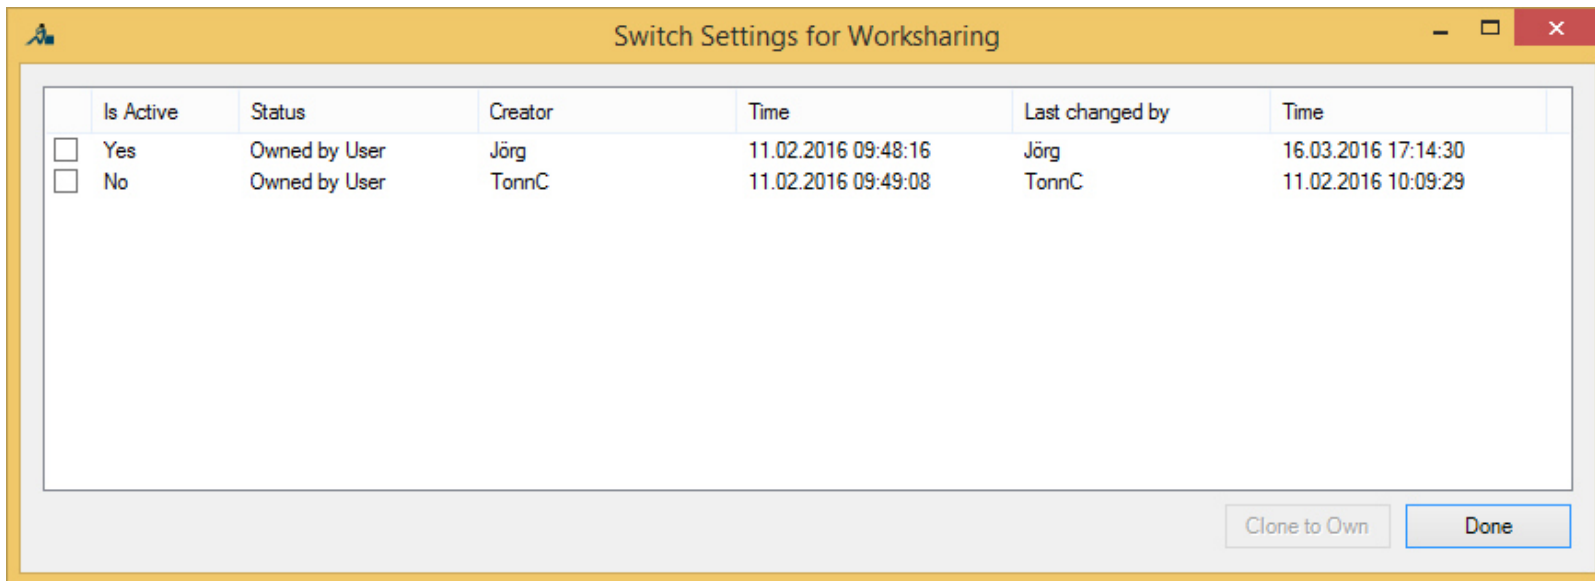

Wall fit

- Now walls can be fitted if only one wall side was scanned

Support of Revit Worksharing

- All PointSense features can unrestricted be used in projects with worksharing
- Each user manages his own PointSense settings
- PointSense settings can be transfered to other users

New FARO Design

- FARO will be visible in the appearance of the software
- kubit becomes FARO, orange becomes blue
